

pixels
H.C.Andersen's fairytales

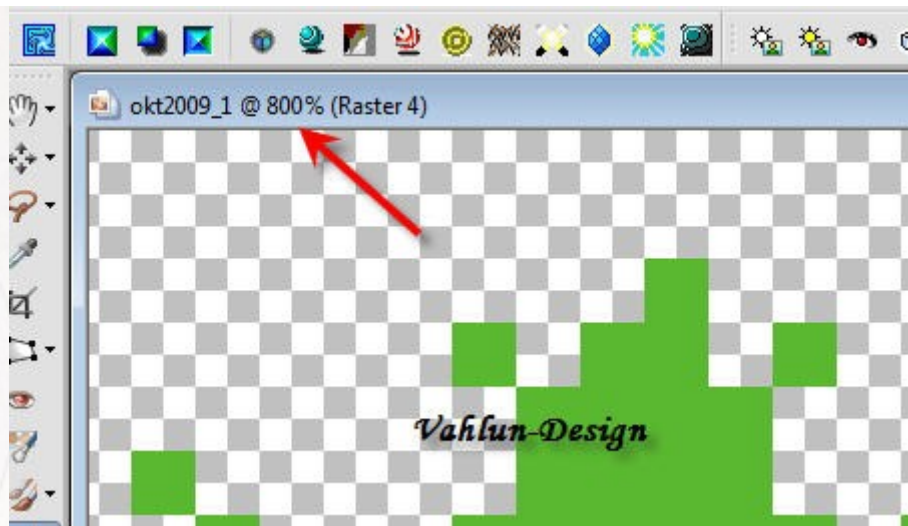

1. Open image 400x400 for the small ones or 600x400 for the large ones
2. Also open the pdf-file with the pattern
3. zoom in to make it possible for you to see the pattern clearly

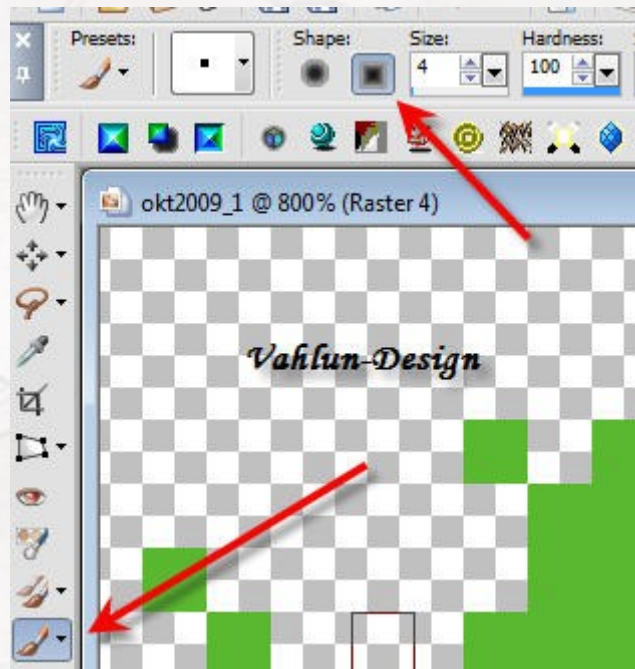

4. open the color-codes in your psp.
5. zoom in on your image to 800 %

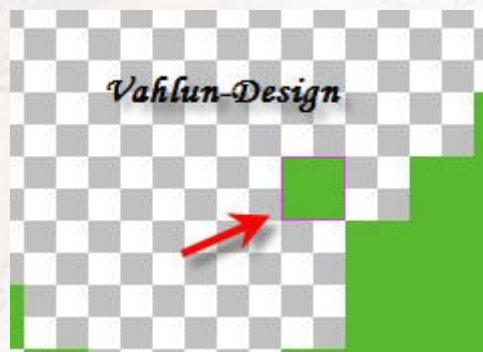

Copyright
2009

6. find your paint brush tool
7. put the square on size 4 pixels

8. By making your settings this way, each dot will be exactly 4 squares

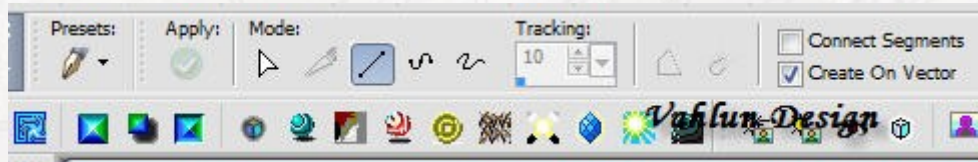

9. It makes it easier when you have to see where you are, + you can
10. make the half-cosses by making your pixels size 1

11. Start now at the top of you image and make your squares as shown in the pattern.

12. at the end you find your pen tool
13. and now you draw the lines.

14. Remember when you have to save, to save it as psp-image, this way you can always make a different background.

15. save as jpg-file
